Why take orchestra?

When students enter a new situation, life can get more difficult to handle. The KHS Orchestra is their home away from home, providing multiple "brothers and sisters" that will help guide them through the high school experience.

These students will learn about commitment, dedication, leadership and other intangibles that cannot be measured by a standardized test.

Students who can work well with their peers have success later in life.

Can I balance orchestra with a busy schedule?

Absolutely! Many of our orchestra students are involved in other sports, clubs, AP & IB Classes. They find that effective time management skills are learned THROUGH participation in orchestra.

What does the orchestra rehearsal schedule look like?

In the fall, rehearsals after school are limited with 3 concerts. The main rehearsal schedule takes place at the beginning of the Spring semester due to Concert MPA preparation. For a full calendar, check out our website, www.khsorchestra.org
